payment of any relevant tax or other amount the same amount whether the tax or other amount is payable or not.

12.3 Indemnities

The indemnities in this Agreement are:

If a provision of this Agreement is invalid or unenforceable in a jurisdiction:

- a. it is to be read down or severed in that jurisdiction to the extent of the invalidity or unenforceability; and

- c. A single or partial exercise of a right by a party does not preclude another exercise or attempted exercise of that right or the exercise of another right.

12.6 Set Off

If any term of this Agreement is regulated by legislation relating to unfair contract terms and we are advantaged by that term, we may only exercise our rights under that term, to the extent (if any) reasonably necessary to protect our legitimate interests, unless the term would not cause a significant imbalance in the parties' rights and obligations under this Agreement or it would not cause detriment (financial or otherwise) to you if we applied that term or relied on it. Words under this clause have the same meaning as under the applicable legislation.

13. INCONSISTENCY

In the event of any inconsistency between the provisions of this Agreement and the provisions of the Dealer's Participant Agreement, the Dealer's Participant Agreement shall prevail and take precedence to the extent of any such inconsistency.

ANNEXURE 1

Terms for use of Automated Client Order Processing (clause 3.4(a))
The Adviser acknowledges that the following are the terms of access to ACOP:

1. Straight Through Processing (STP) refers to the automated processing of a securities order through the Market Operator's trading platform, without any manual intervention or duplicate processing.
2. Once an Adviser has confirmed an order on behalf of a Client in accordance with the Dealer Group Agreement the order will be automatically placed into the trading platform provided it meets certain criteria.
3. It is possible for an order placed by an Adviser to be matched with another order also placed by the Participant. This "crossing" may be with an order by another client of the Participant or by the Participant itself. The Participant may as a result receive brokerage from both clients.
4. STP is only available on "limit" orders for securities with a normal status (i.e. not suspended or in a trading halt) and is operated between the hours of 9:30 am and 4:00 p.m. Monday to Friday Eastern Standard Time. STP processes an order through a series of filters to deem whether or not a bid or ask is at a "marketable price" and complies with the requirements of the Corporations Act, the Market Operating Rules and all other relevant regulatory or legal requirements, and if so it will automatically enter the market.
5. At Market orders can only be accepted during market open hours which can be located via the respective Market Operator's website, in securities with a normal status (i.e. not suspended or in a trading halt). STP is available on market orders.
6. If a bid or ask does not meet the above criteria, then it will be referred to a Designated Trading Representative (DTR) for evaluation. In some cases the DTR has the authority not to place the order on market until the Adviser becomes contactable to confirm the order.
7. The Market Operator's Trading Platform operating schedule defines the various phases of the trading platform and at what time they happen. The ASX trading platform will not allow input of orders during its opening phase.
8. As a trading participant, the Participant must ensure the conduct of an orderly market and prevent manipulative trading, including insider trading, false trading, market rigging and suspect transactions. Therefore in utilising STP the Adviser should realise that an order may be scrutinized by both the filter and a Designated Trading Representative to ensure that it:
 - a. does not offend the requirement for an orderly market;
 - b. is not intended as a manipulative trade.
 - c. complies with the provisions of the trading platform reference manual;
 - d. complies with the instructions and directions issued by the Market Operator's market control;
 - e. does not intentionally take advantage of:
 - i. a breakdown or malfunction in the Market Operator's procedures or systems;
 - ii. an error in entries made by the Market Operator within the trading platform or the Derivatives Trading Facility.

The Participant is required to prevent a bid, offer or dealing if a client intends to create, or taking into account the circumstances of the order the Participant Securities reasonably suspects that the client has placed the order with the intention of creating a false or misleading appearance of active trading in any securities or with respect to the market for, or the price of any securities, or market rigging or manipulation or suspect transactions.
